

Camille's Sidewalk Cafe

Rochester, New York

PROJECT STATISTICS

Client:

Camille's

Construction Cost:

\$250,000

Completion Date:

March 2005

Passero Associates was retained to design the first of these fast-casual, health-conscious restaurants in the Rochester area. The high-demand urban location presented many challenges, including the need to satisfy an historical preservation board. The designers at Passero were able to provide Camille's with an attractive, highly functional space that was in keeping with their corporate goals, while seamlessly integrating the new restaurant into the existing neighborhood.
