

EASTSIDE YMCA OF GREATER ROCHESTER

Penfield, New York

Passero Associates was retained to design this new 69,000 square foot YMCA family recreation facility, which is garnering national attention due to its unique design aesthetic, state-of-the-art equipment and fitness programs. Passero Associates provided Project Management, Architectural, Engineering, Surveying, Planning, Approvals Management and Construction Administration Services.

The design and site placement brings light and an open feeling into nearly every corner of the building. The facility is sited on over fifty acres, allowing for a future outdoor aquatic center and a possible day camp.

The facility consistently exceeds the standards of the Americans with Disabilities Act.
