

FALVO FUNERAL HOME

Penfield, New York

This beautiful new facility is designed in strict accordance with the needs of the client and the requirements of the Penfield Town Board. The building blends in seamlessly with the residential character of the neighborhood, yet provides full functionality to its owners. Elegant and spacious reception and viewing areas accommodate every client. Upscale living quarters provide comfort and convenience to the owners.

Passero provided full architecture and engineering design services for this new facility. A key component of these services was the guidance and assistance Passero provided with planning, zoning and town board approvals, integrating the requirements of both the community and the client during the design process. Passero's expert construction administration services, combined with the partnership of Spoleta Construction, enabled the project to be completed in a timely fashion with outstanding results.
