

OPEN DOOR BAPTIST CHURCH

Rochester, NY

The 150 family congregation of the Open Door Baptist Church occupied a small, circa 1923 structure located in the 19th ward neighborhood of Rochester, NY.

As the congregation grew the church purchased a twenty-three acre parcel of land in Chili, NY. This created a site that would support their growing congregation and accommodate their detailed building program while staying within a limited budget.

Passero Associates was hired to provide architectural design, site design, and construction documents, administration and inspection.
